PaintSonic Collection

www.feltdecor.eu

PaintSonic - Decorative framed artworks

PaintSonic consists of distinctive artworks and compositions printed on PET polyester felt and framed in natural wood. They combine modern aesthetics with functionality, creating a unique visual effect while adding individual character to interiors. The felt used in production, developed with waste reduction in mind, reflects the principles of responsible design while enhancing comfort and overall spatial quality.

In our projects, we use graphics from the Valare collection or custom designs provided by clients, ensuring that each piece becomes a unique, space-specific design element – ecological, contemporary, and fully personalised.

Available colors: UV CMYK printing on the p.line FD05 Sandy Beige panel

Minimum order: 1 artwork

Packing: 610 x 610 x 38 mm carton, contains 1 artwork with a total weight of 1,85 kg

Base color:

FD05 / Sandy Beige

Thickness: +/- 9 mm | **Density:** 1600 g / m² | **Composition:** 100% PET polyester (partially recycled)
Sound absorption class: None | **Fire classification:** None

Slight differences in color and texture may occur with multiple orders.
 Synthetic felt is a heterogeneous mixture of polyester fibers, so that slight differences in color are a natural characteristic of the material and are no reason for complaint.

The colors shown may vary depending on the characteristics of your screen - we recommend that you visit your dealer to make sure of your final color choice.
